## WITH A BIG LEAD IN SECOND PLACE.

Salt Lake Has Won Two Straight

LOBSTERS ALSO STEP UP.

Ir. Griffin is Now Thinking Seriously About Getting That Pennant -Means Business.

Well, it's beginning to look different. Salt Lake has scrambled into second place, with a lead on the Bambergerites uite enthusiastic enough to hold 'em for awhile. Will they head off the Lobsters? The way they fell to it Saturday, in the game with the Farmers, leads one to think that they can pull past Gimlin's crustaceans and slip into first place with the big per centage. Griffin has been thinking about it,

that's evident. Even the Sledge club takes an adjournment on that question, and it is quite generally agreed among the tool artists that the White Wings are now in the game seriously and with earnest intent. Up to last Saurday they had played some good ball and some ball that was bad, very bad. But now it looks as though they are through with their jockeying for a fair start, and have begun to break in on Father limlin's little Kensington up there at the head of the column. Mr. Griffin has taken it under advisement.

The two new men taken under the protecting white wings certainly made ood, and their home here is permanent, if they choose to make it so. El-mer Meredith, the south paw, who erst-while bent the leather for Denver in e Western League, is, perhaps, the ore valuable addition of the two; but they will teach help Griffin very mater-ally to win that pennant. And that seems to be the idea now-win that

Sporting Notes.

T a meeting of the league directors held Saturday night. Willis Beardsley was elected president, recelving three of the directors' votes. Dad Gimlin wasn't quite

sure how his doughty band would take it or he would have registered his ballot in the affirmative. As it was, it is all right and Mr. Beardsley will stay at the helm. He has always been an enthusiastic fan, and, as a league president, many goodly things are expected of him.

The most persistent rumor of all is that Clip is going to take the bunch, angelled by some unknown man with a sufficiency of the filthy, quarter them at Calder's Park, and thus play out the schedule. But that is only guess work, and nobody except those inti-mately connected with whatever deal is oing on knows just what will happen. And they are as tight as the proverbial clam.

George A. Bates, shortstop for Park City, has received a ticket to Memphis, and will leave for that place some time this week. Tommy Cope will probably go 'long, too.

LONDONERS ARE CHARY. But Think that Constitution is No Match for Herreshoff Boats.

New York, July 8 .- The London correspondent of the Tribune says: Although chary of drawing any final deductions from the telegraphed reports of Saturday's yacht race, the opinion in London is that the Independence is no match for the Herreshoff boats. If she is as much slower as the race indicates Mr. Lawson's protest against the exof the New York Yacht club will find few supporters in London, nor will there be any disappointment at the failure of a boat of such an undesirable type.

RAPID FIRE SHOOTING. Interesting Competition Inaugurated by Lord Roberts.

York, July 8.-The program of the Bisley (England) rifle meeting, which begins today, shows, the Tribune's Lond n correspondent thinks, that some, at least, of the lessons of the Boer war, have not been overlooked. The rapid fire principle has been introduced in many short distance competitions, both for teams and individuals, and efficiency in firing at extreme range is also encouraged. In the latter case the target will be undistinguishable to the naked eye and readily adjustable telescopic sights and artifi-cial rests will be allowed.

The most interesting competition, however, will be that founded by Lord Roberts for snap shooting by teams from sections or companies. The men who are concealed behind breast works will, on the sound of a whistle rise, fire and return to concealment, the entire exposure not exceeding four seconds. With the exception of the Canadians the only colonists who have arrived are two men from Cape Colony and one from Rhodesla. Unlike the disastrous gathering of last year, the meeting promises to be a great success, the number of entries showing an increase of nearly five thousand.

He is in New Jersey and has covered more than forty miles of his journey to the Pacific coast, which he expects to reach on foot in six months, at the rate of twenty miles a day. Mr. Smyth has tramped in this manner through Great Britain. He expects to defray his expenses on the present trip by de livering lectures in some of the larger

Nothing Will be Done for Americans Who Fought in the Boer Armies.

Request to Release One Now Confined in Ceylon Declined by

New York, July 8.-Americans fight in the Boer armies and are or have been made prisoners by the British will have to endure their captivity until the close of the South African war, says the Herald's Washington correspondent. Great Britain has declined to comply with the request of this government to release an American now confined in the island of Ceylon, and this refusal will probably prove a bar to further representations by the state department in behalf of Americans captured as belligerents in South Africa. The test case was that of a naturalized

British high commissioner in South Africa, disapproves of the release of foreigners who fought with the Boers. He has announced that a person who serves as a belligerent with the Boer forces loses his nationality and must be treated as an enemy. The department is satisfied, from investigation made by American consuls and the British authorities that all repors that the British are ill-treating their prisoners are without foundation only hardship that Americans captured in South Africa will have to un-dergo will be that of confinement until

Ashland, Or., July 7 .- A head-on colision took place on the Southern Pacific at Black Butte Summit, twenty-two miles north of Dunsmuir, this morning at 5:40 o'clock between the southbound California express and a special northbound passenger train the women arrested confess to having of seven coaches, carrying musteredout volunteers from the Philippines. Two helper engines, a baggage car and a mail car were badly wrecked. A tramp on the soldier special was instantly killed and another had his arm and leg broken. Engineer Henry Wentz of the express train sustained serious injuries, and a number of pas-

sengers had cuts and bruises.

The locality of the wreck was a very sharp curve at the summit of the butte and the two trains were moving at the rate of thirty miles an hour when the crash came. That so few cas occurred is most remarkable. That so few casualties engineer of the soldiers' special train failed to note the running time of the regular passenger train.

The Beguny is a strange sect which kills many of its votaries, the victims willingly consenting to the sacrifice. The favorite method is to bury alive those selected for the sacrifice.
